PETSAFE® HIGH TECH FELINE TOYS

Described as 'fun that never stands still', the **FroliCat™** range from global pet product expert PetSafe offers a variety of high tech cat toys designed to stimulate and engage.

The collection features a combination of rotating, zooming, darting and twitching objects for cats to 'prey' on. Testing reflexes to the maximum, the automated, interactive teaser toys challenge and entertain for hours at a time. Each toy can be adjusted to allow a degree of variation to add further interest

The most recent additions to the **FroliCat** range are the **FroliCat CHATTER™** and **FroliCat CHEESE™** toys. Both are specially designed to provoke a cat's natural hunting instinct, encouraging movement and promoting overall wellbeing. **FroliCat CHATTER** is a self-righting ball with a moving golden bird teaser attachment, whilst **FroliCat CHEESE** offers cats a fun peek-a-boo game as two mice pop out of each side of a Swiss block of cheese.
