PRESS RELEASE

January 2016

A BETTER WAY TO HYDRATE PETS WITH PETS SAFE® HIGH-TECH DRINKWELL® FOUNTAIN RANGE

A pet's health and wellness is a key priority for PetSafe® brand and the global pet product expert has developed its Pet Fountain range with this in mind. PetSafe® brand offers a comprehensive selection of fountains for its customers - the most recent being the Drinkwell® 360 Stainless Steel – an ideal solution for multiple pet hydration.

With a capacity of four litres, the Drinkwell® 360 Stainless Steel Pet Fountain has five interchangeable spout rings which can be used to increase the number of water outlets; making the free-falling stream accessible from all sides of the fountain. The spout rings can also be adjusted to increase or decrease the flow of water to suit the needs of individual pets.

Wide-ranging options include the Ceramic Avalon Pet Fountain – its ceramic design is equally hygienic and operates via a low voltage pump. The space-saving Drinkwell® Mini Pet Fountain for cats and for small dogs is also popular, as well as the Drinkwell® Platinum Pet Fountain, which can accommodate up to five litres of water.
