

Standard and Deluxe SUV Cargo Liner Care & Use Guide

Thank you for purchasing the Solvit Products SUV Cargo Liner.

INSTALLATION: The SUV Cargo Liner is designed to lay flat in the cargo area of the largest model SUV's with the rear bench removed. The front edge of the cargo liner has straps to go around the headrests of the middle bench row, if desired. There are strips of hook tape sewn to the back of the liner. The hook tape grips to most common types of automotive carpet and will help keep the cover in place.

In addition to the hook tape, the cover includes strips of loop tape with adhesive backing. These can be used to help secure the cover to the plastic panels on the sides of the cargo area in narrower vehicles. First, place the liner in the desired position in the cargo area. Using a pencil, make a small mark on the plastic panels to correspond with the locations of the hook tape strips closest to the back of the vehicle. Clean the plastic thoroughly with alcohol around these four marks. Peel the protective strip from the back of the loop tape strips and adhere to the cleaned areas. Reposition the liner so the hook strips align with the loop strips to secure the cover to the side panels.

Cleaning: Promptly wipe up any foreign matter or standing liquid with a damp cloth or sponge. Machine wash the cover in a commercial size front loading washing machine. Use cold water with a mild detergent. Line dry.

CAUTION: Always make sure the floor of the vehicle is dry before installing the Solvit SUV Cargo Liner.

Limited Lifetime Warranty: The SUV Cargo Liner is warranted to be free from defects in materials or workmanship for the life of the product. Some restrictions apply, so please visit our website for more details. A copy of the original sales receipt is required for warranty issues.

SOLVIT Products is dedicated to offering innovative solutions to improve pets' quality of life. Please feel free to contact us with any questions, comments, or warranty issues. Thank you for your purchase!
