

# Bark Control at-a-glance

**Nuisance Barking:** Barking dogs can create stress for their owners. PetSafe® offers many varied solutions to help control a dog's barking.

**Perfect Bark™**  
PetSafe **Perfect Bark™** technology ensures fair and consistent bark control for pet dogs. Perfect Bark means that collars must detect both vibration and bark from the dog to trigger stimulation - eliminating the risk of false stimulation because of environmental noises or another dog's bark (available on selected products).

Bark Control	Number of stimulation levels	Automatic progressive stimulation	Memory retains stimulation level needed to deter barking	Perfect Bark™ technology	Waterproof	Low spray indicator	Low battery indicator	Pet weight	Maximum collar size	Receiver Collar weight	PetSafe battery product code
